MASTÈRE IN HUMAN RESOURCES MANAGEMENT

Program Objective

The Mastère in Human Resources Management prepares future HR professionals to manage talent, support organizational performance, and develop effective workforce strategies in a global business environment.

Career Opportunities

- HR Manager
- Talent Acquisition Manager
- Compensation & Benefits Manager
- HR Business Partner
- Learning & Development Manager
- Organizational Development Consultant

Graduates are prepared for senior HR leadership roles in multinational organizations, consulting firms, and dynamic enterprises.

The program includes:

Intensive French Language Courses
Improve your speaking, listening, reading, and writing skills through structured lessons.

Cultural Excursions
Discover important historical landmarks and cultural sites in France.

Gastronomy & Culinary Tourism Experience
Explore French cuisine through tastings, workshops, and local food experiences.

International Exposure
Visit the United Nations Headquarters in Switzerland and gain international insight.

Teaching Methods & Assessment

- First Year (M1): Continuous assessment, case studies, group projects, simulations, and exams.
- Second Year (M2): Continuous assessment, final exams, consulting projects, thesis or applied research, and oral defense.
- The program combines theory, applied practice, and real-world HR projects, including internships, workshops, and HR strategy projects in collaboration with industry partners.
